

CAREER OBJECTIVE

I am an aspiring architect, STEM teacher, and Maker looking for opportunities to apply my 5 years of learning in the architecture field, STEM-oriented teachings experience, curriculum development skill, and IoT skills. My objective is to develop a professional career in Architecture, specifically in Smart building design in which I believe lies the solution to optimize user comfort.

EXPERIENCE

WAAW Foundation

STEM Chapter Leader

November, 2013 - April, 2019

I coordinated a team of co-leaders in the STEM chapter (FUT -ME), organizing outreaches at secondary schools in Nigeria, inspiring girls to see themselves as people that can be very valuable in the society today, also mentoring and encouraging them to consider STEM related courses because the female's perspective is so needed in the world.

ARCHCON

Intern

May 2017 - November 2017

I was in charge of producing 3D drawings as well as detailed drawings. I also participated at site visits to the 500 Beds Specialist Hospital at Millenium city, Kaduna State.

EDUCATION

Federal University of Technology Minna

Architecture

2018

PROJECTS

Arduino Day 2017

20 days

Arduino day is a worldwide birthday celebration of Arduino by the arduino commilunity.

TECHNICAL SKILLS

Proficiency in AutoCAD

89%

Proficiency in Lumion

72%

Proficiency in SketchUp Pro

94%

Proficiency in Arduino

80%

Intermediate in Python

50%

Proficient in Figma

82%

INTERESTS

IoT

Dancing

Interior Decoration

ACHIEVEMENTS & AWARDS

WAAW Foundation Scholarship 2013
Arduino Day Certificate of Participation
AWELE Academy Certificate
Intermediate Python (Statement of Accomplishment)

ACTIVITIES

Volunteer at WAAW Foundation
Volunteer at The SWAN project
Facilitator at Colab for Kids
Facilitator at Colab for Women

PERSONAL PROFILE

Date of Birth : 11/05/1994
Nationality : Nigerian
Known Languages : English, Hausa
Hobby : Reading, Dancing, Designing, and making DIY crafts
State of Origin : Benue State
